

ULTIMATE POOL SURFACE

Made in Germany

Swimmers love our pool surface!

A wide-angle photograph of a large, rectangular swimming pool with clear blue water. In the background, there is a row of modern, multi-story residential buildings with light-colored facades and dark window frames. The buildings are situated behind a green lawn. A white pickup truck is parked on the left side of the lawn. The sky is a clear, bright blue.

ELEGANT. UNIQUE. COMFORTABLE.

North Coast Haisenda, Egypt

Size: 430,556 square feet (40.000 m2)

Year Installed: 2015

Healthiest Material with
No Hazardous Components

ULTIMATE POOL SURFACE

Made in Germany

Island of Cozumel, Mexico

Size: 35,000 square feet (3.251 m²)

Year Installed: 2003

MANUFACTURER'S **PROMISE**

Our 40 years of experience and our stellar reputation worldwide bring you peace of mind.

Our product will exceed the life of other type of surface.

Your pool will always be clean and beautiful.

Our product is customized and tailored for a perfect fit for any size or shape of pool.

The membrane installs quickly in both warm and cold weather, with no wrinkles in temperature variances.

This is an algae resistant and anti-microbial product.

Once the membrane is installed, the pool is available to swimmers immediately. We eliminate the up-to-6-day wait period for cleaning that occurs with other type of surface material.

This product offers the durability of concrete, without the skinned knees, arms or feet typical of a concrete or tiled pool surface.

La Palma Del Condado, Huelva, Spain

Size: 5,000 square feet (464 m²)

Year Installed: 2003

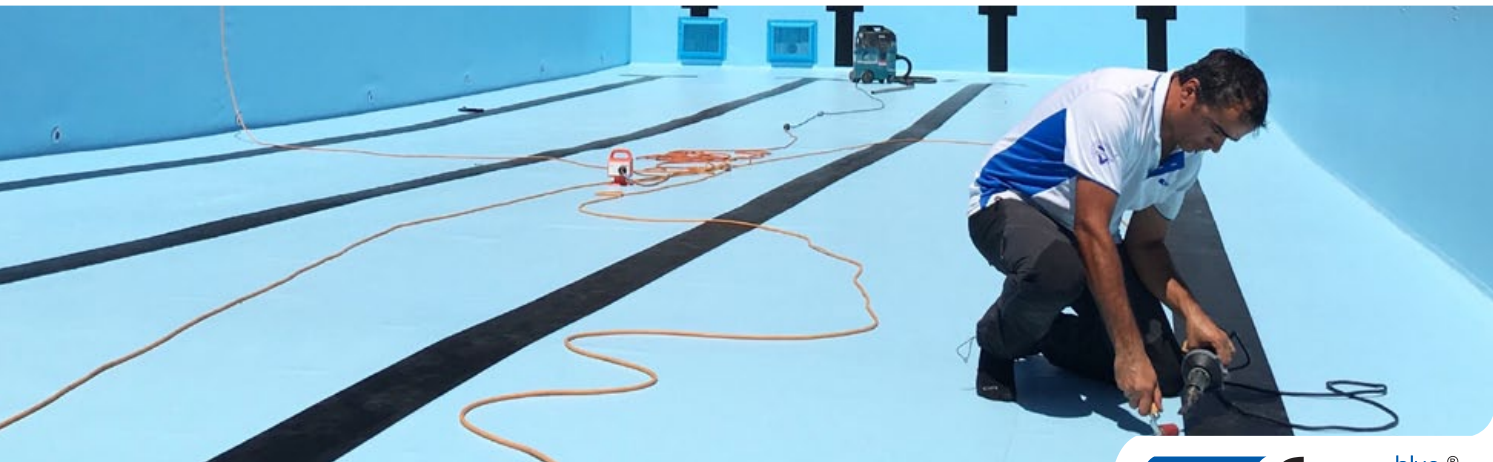

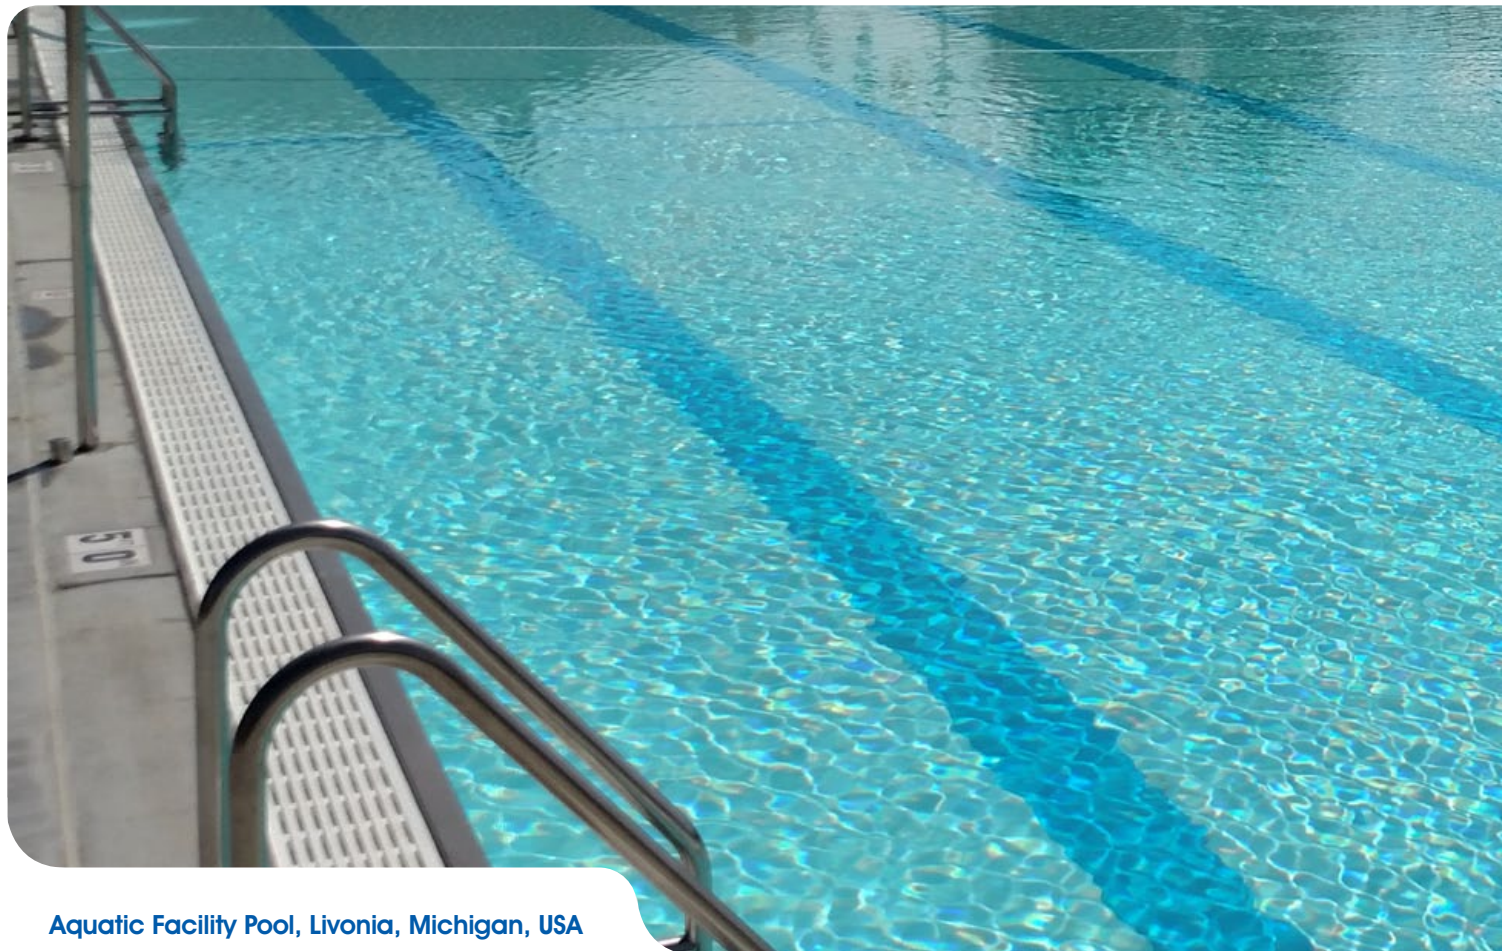

Christchurch, New Zealand

Size: 4 pools of 3,330 square feet (310 m²)

ELBE blue[®]
LINE
POOL SURFACE

Adverse Condition	Concrete/Plaster Cementitious Coatings	Paint	Fiberglass Coatings	Ceramic Tile	
Cracking	Almost always re-cracks	Always re-cracks delaminates	Almost always cracks or peels	Will crack and delaminate	Will never crack
Black Algae	Will grow back through	Will grow back through	Will support algae growth	Will support algae growth	Will not grow through or support algae growth
Acid Resistance	Can be acid washed	Unknown	Subject to chemical deterioration	Low; grout joints attacked	Does not need acid washing
Pool Chemical Usage	Contributes to alkalinity; supports algae growth	Less than plaster	Less than plaster	Encourages & supports algae growth	Reduces chemical requirements
Watertightnes	Will crack; not watertight	Will leak; no effect on watertightness	Will delaminate & leak in time	May leak; crack & delaminate	A watertight impervious lining
General Chemical Resistance	Very poor	No protection	Will deteriorate	Grout joints will deteriorate	Not affected by normal pool treatment levels
Expected Life	3 – 5 Years	1 – 3 Years	3 – 5 Years	5 – 10 Years	15+ Years

ELBEblue line® has an exclusive formulation elaborated in house with only pure resin:

Longer life span

Surface easier to clean

Excellent protection against scratches

Prevents the development of bacteria & fungi making the pool more hygienic

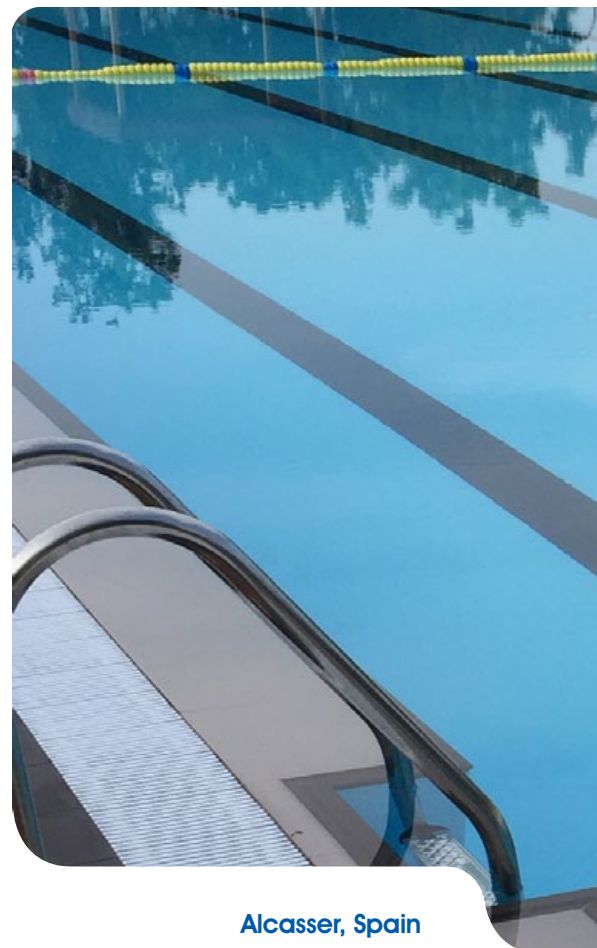

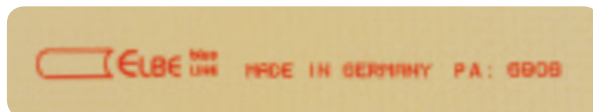

Best protection against UV radiation, preventing premature aging

The system allows a quick installation*

Check the genuine ELBEblue line seal on the back side!

Alcasser, Spain

Size: 13,450 square feet (1.250 m2)

Year Installed: 2016

Elbtal Plastics is a German manufacturer that has been successfully manufacturing and installing this reinforced membrane throughout the world for more than 40 years. Elbtal Plastics is a global leader in the production of vinyl pool surfaces. We adhere to the highest standards for installation and certification.

The membrane is formed by 2 flexible sheets made of plasticized polyvinyl chloride (PVC-P) joined together with an inner polyester fabric. This polyester fabric provides dimensional stability and high resistance to punctures or tears, as well as elasticity and flexibility.

Our success is based on German engineering, trust and the highest standard of quality. Our priority is creating the best quality product and bringing it to market, while conserving natural resources and our environment. This benefits the health and well-being of our customers.

Elbtal Plastics is ISO 9001 certified, the highest international standard.
